

REMOTE TV BROADCAST LIVE & ANYWHERE

INDEPENDENT BROADCAST WITHOUT COMPROMISE

Our Remote TV Broadcast solution enables remote live and on-tape production with your valuable resources and assets from home. An onsite appliance-accelerator at the event location connects fully remote to all needed features and comms.

Commentators, experts, a full gallery-crew - integrated seamlessly from their home without missing any onsite vibe. This setup supports unlimited broadcast and live duties with a minimum of continuous bandwidth. Capture nearly every onsite detail for an immersive digital broadcast experience. We call it a truck in a rack.

KEY FEATURES

- **Full Remote Operation**
Control all broadcast functions remotely
- **Onsite Appliance-Accelerator**
Seamlessly connect with the field-unit at the event site
- **Scalable Camera Support**
Link nearly unlimited cameras for multiple captures
